

## "Which of These Problem Pain Areas Do You Want To Beat?"

It sounds unbelievable, yet it's true. More than 99.3% of the individuals who have tried this startling breakthrough formula report complete relief or a reduction, so dramatic, the once constant pain became barely noticeable! "If you or a loved one suffers with debilitating pain in the back, knees, hands, or wrists... (even if it racks your entire body), then this information may mean more to your well-being than anything you've ever read..."

I was diagnosed with crippling arthritis years back. I have a nursery in my yard and couldn't even grip the potted plants. I tried all kinds of different medically-suggested products, but when I started taking Joint Care, I soon noticed my pain was gone. My doctor told me to keep doing what I was doing. I know it is the Joint Care, because when I run out my pain comes back - **John Benz, Cincinnati, OH**

Joint Care is another of my favorite products that has made a difference in the way I feel. My back is not stiff, it takes less time for me to recover, and the greatest benefit is, I don't have that "Drag" feeling I use to have - **Pete Andrewson, TX**

Countless emotional testimonials flood the Beverly office every year from people who have finally experienced relief by using **Joint Care**, the unpretentiously named product I'm about to describe to you. The gratitude of the people who share their stories with us is, at times, overwhelming. As you'll see, for some the relief was nothing short of miraculous.

### Joint Care Supplies Essential Nutrition to:

- **Increase** joint flexibility and strength.
- **Rebuild** damaged cartilage.
- **Speed** recovery from existing injury or inflammation.
- **Relieve** swelling and decrease pain.
- **Guard** against future injury.
- **Maintain** healthy joints.

### Beverly's Joint Care is NOT a Cure All!!!

Please understand, these results are amazing even to us at Beverly International, and we are not promising that you'll get the same results, nor are we suggesting that you take this information as medical advice, (we are not doctors). **Joint Care** was created to promote joint health...to help prevent rigorous training from causing damage. As it turns out, **Joint Care** seems to do that, plus a whole lot more for a whole lot of people. Not only will **Joint Care** provide you with a level of protection from future joint pain, it can eliminate current pain, allowing you to train harder with greater comfort and joint integrity.

### Here's a Summary of Just Some of the Reported Results:

- **5 years of chronic back pain** almost unnoticeable after only 2 days!
- **Leg pain** completely gone in one week!
- **Hip pain** vanishes when using the product!
- The only non-prescription method that relieved woman's osteoporosis.
- **Ex-Boxer's wrecked shoulders** no longer hurt.
- **Arthritis pain** gone after 6 days - and stays gone when using the product!
- Unbearable **hand pain** gone after 3 days!
- **85-year-old grandmother** can now scale **3 flights of stairs** with no knee or leg pain!

**In spite of the fact that Joint Care is not a medication or intended to be a cure, stories of incredible results continue to be reported. Here's just two such stories:**

"I've lived with chronic back pain for 5 years. On a scale of 1-10 with 1 being no pain and 10 being the worst pain I've ever experienced, I'd say my pain was always a 3, (and I believe my tolerance for pain is quite high) Occasionally it would shoot up to 8 or 9, in other words, very painful. (cont. on next page...)

During times when the pain shot up to a 5 or more, I sought relief by undergoing many forms of therapy, although many of those efforts provided some relief, the pain was usually only returned to level 3, a constant.

Then it was suggested that I try Beverly's Joint Care...and you might notice if you check your records that I only ordered it a week ago...but after only two days using Joint Care, I woke up in the morning and realized I wasn't as stiff or sore. Over the next several days, the pain and stiffness continued to diminish. My pain level is now almost gone, probably a 1.5 after one week of use!!! I am sold for life. THANK YOU! THANK YOU!" - **Sincerely, Michael Bolles (bolles1M@aol.com)**

"What an incredible product Joint Care is!!!! I was suffering from incredible hand pain and had almost no ability to grip because of it. I couldn't sleep at night, curls were an agony, (I wondered why my biceps didn't peak), bench-pressing anything was an ordeal...you get the picture. To give you a better idea, working legs was a welcome relief from agony.

My trainer, with all well-minded intention, recommended I try MSM to relieve the pain. He suggested powder form in shakes, twice per day, YUCK!! If anyone has tasted sulfur, this is it. It comes out in the shake like a vise on your taste buds. In other words, disgusting. Then, I ran into one of the articles about Joint Care on your website and decided to order a bottle. Desperate for some relief while I waited for the order, I went to GNC and bought some Glucosamine, which did nothing in 4 days. Then came the day I received my Beverly order and there it was, Joint Care.

Immediately after opening the box, I dropped 3 in my mouth and proceeded to take 12 per day for the next 3 days, then 9 per day. What a remarkable difference. Whoever reads this may be skeptical and think people get paid to say these things about Beverly products, but the fact is undeniable – they actually do what they claim to do. - **John Calero (jcalero@quixnet.net)**

PS: One sad fact, I forgot to reorder and have been without for 6 days and, even though the pain has not returned in the same fashion, I can tell the difference.

**While we can't promise that everyone (or anyone) who tries Joint Care will get the miraculous results we've seen, or have had reported to us by others, (everyone's body is different), we do promise that you risk nothing by trying it. Skeptical? Then Let Us Offer You This Assurance...**

In fact, if you have any type of joint related pain that has been robbing your quality of life or potentially limiting you from building and keeping the physique you deserve to have, then let us make you a no-risk offer to see if **Joint Care** can help you put a quick stop to it.

You may have concerns that this will be just another disappointment...we understand. Chronic pain is terribly difficult to live with and so many products promise you the world, but deliver nothing. It's easy to lose hope that you'll ever find relief.

We honestly don't know if **Joint Care** will work for you, but the difference is we take on the risk instead of you. If you are not completely, utterly, absolutely delighted with **Joint Care**, we will refund all of your money, no hassles, no hard-feelings...all you have to do is call and let us know. There's no time limit on this guarantee either, you'll either find relief or be reimbursed.

**Why are we doing this?** The answer is simple. If you are going to get relief from **Joint Care**, you'll start seeing the benefits almost immediately, at most a week or two. We also know that if you have the kind of pain that we've described in this article, you have tried a lot of things with high hopes and you've been let down. That might prevent you from trying **Joint Care** and that could be a tragic mistake. We'd hate for you to quit "five minutes before the miracle," so to speak.

And yes. We already guarantee every single Beverly Product, the point is...we care about eliminating your pain. So to prove it, we want to make the ENTIRE process painless. You've nothing to lose...and you might gain relief from the pain!

**We hope you won't pass this offer by. Nothing would bring us more joy than to get a letter or call from you, telling us that Joint Care freed you, (or someone you love) from pain that you once felt was yours to endure. Try Joint Care today - Risk- FREE Relief may only be one call away!**

## Look What's Inside Joint Care

Beverly International's Joint Care is developed from the latest research on nutrients that can promote joint health. The result is a potent formula that combines three targeted ingredients, Glucosamine, MSM, and Chondroitin scientifically proven to promote joint health with a precision array of synergistic vitamins, minerals and essential oils.
